

Prescribing Information

DermaX[®]

Therapeutic Shampoo

Benzalkonium chloride 0.5% w/w.

Uses: For the topical treatment of pityriasis capitis and other seborrhoeic scalp conditions, where there is scaling and dandruff.

Directions: Adults, children and the elderly: Use as a shampoo, daily if necessary, reducing the frequency of use to once or twice a week as the condition improves. Thereafter, occasional use may be necessary. Wet the hair and apply sufficient shampoo to the scalp to produce a rich lather and, with the tips of the fingers, rub in thoroughly. Remove as much lather as possible with the hands, before rinsing thoroughly under running water. Repeat if necessary.

Contra-indications, warnings, side effects etc: Please refer to SPC for full details before prescribing. Do not use if sensitive to any of the ingredients. In case of irritation, or if there is no improvement after 4 weeks, or the scalp condition seems to look or feel worse, discontinue treatment. Keep away from the eyes. No known side-effects.

Package quantity, NHS price and MA number:
250ml bottle £5.99, PL 00173/0198.

Legal category: P.

MA holder: Dermal Laboratories Ltd, Tatmore Place, Gosmore, Hitchin, Herts, SG4 7QR, UK.
